Driftwood

Charcoal Grey

Weatherwood

Dual Brown

Forest Green

Earhtone Cedar

Heatherwood

Dual Grey

The "HP" stands for "High Profile", which means that they're also designed to enhance the architectural shake-like appearance and dimensional profile of premium laminated fiberglass shingles.

Beautiful protection against the elements – and easy to install, too!

- ✓ Dramatic high-profile design adds dimension, depth and texture
- ✓ Enhance your home's aesthetic appeal by accentuating the roof-line
- ✓ Multi-layer construction for durability and superior tear strength values
- ✓ Self-sealing adhesive backing for easy installation and maximum wind protection
- ✓ Match the unique, computer-generated color blends of Cambridge "Nature's Accents" color series
- ✓ Pre-formed rolled design features a curved edge and has an 8-1/4" exposure – no need to cut or fold on the roof
- ✓ Because there are fewer pieces to install than with traditional hip and ridge products, there's less labor involved

For more information, or to see a sample of just how beautiful the IKO UltraHP™ High Profile Ridge Cap Shingles really are, contact your Roofmart Sales Representative today.

COMPARE THE DIFFERENCE

3-Tab Capping

How much do you need?

An average 2500 sq. ft. home requires approximately 70 linear feet of IKO UltraHP™ High Profile Ridge Cap Shingles.

To determine how much you need, measure the roof's ridges, hips and dormers.

- ✓ Each box covers approx. 20 linear feet
- ✓ For 100 linear feet of coverage, approx. 5 boxes will be required
- ✓ Available in 10" width (approx. 50lb/box) 42 Bundles per pallet

Build it Smart, with Roofmart!
